CAPABILITY STATEMENT

CERTIFICATIONS AND QUALIFICATIONS

Everest Construction, LLC is currently submitted for SBA, MBE and 8a programs. With these certificates, we plan to disrupt the industry by providing a workforce experienced in client requirements and attributing to the industry need to fulfill DBE requirements by partnering, leading, and executing as a qualified entity. Our deep rooted connections have migrated across the United States and we plan to engage in SBA Business Development Programs.

- 8(a) program to assist small businesses
- SBA Mentor-Protégé Program to enter into mentoring relationships with established, successful companies for guidance, assistance, and support to enhance our 8(a) capabilities.
- SBA All Small Mentor-Protégé Program as an extension of the Mentor-Protégé Program open to all small businesses to fosters mentorship between experienced businesses and smaller firms, enhancing our ability to compete for government contracts.
- MBE Partnerships with large corporations that have supplier diversity programs and are interested in partnering with MBEs. Or who seek out our corporation because we align with their industry needs and offer superior diversity options. We will build relationships with these corporations to lead to subcontracting opportunities and other forms of collaboration.
- Government Contracting Opportunities set aside for our designations, further enticing the aforementioned collaborations while we explore opportunities on platforms like the Federal Business Opportunities and work closely with the SBA to identify suitable contracts.
- Regional and Industry-Specific Partnerships through associations and local business chambers with initiatives or programs to support MBEs and 8(a) businesses. We'll engage with these organizations to network and access potential partnership opportunities.
- Joint Ventures and Teaming Arrangements including those with complementary capabilities and ongoing relationships that need to meet industry compliance standards for participation. This can enhance our capacity to bid on and execute larger contracts.

INFRASTRUCTURE AND RESOURCES

First and foremost, our team possesses the in depth knowledge to navigate Government contracts, complete necessary paperwork, staff projects in a compliant manner, and execute the intended scope as outlined by the contract documents.

We operate remotely in a home garage space of 4500sf. While our intent is to open a brick and mortar office as contracts complete, we have no physical overhead burdening us. Thus allowing our resources to be fully allocated project by project. Here we house our trade tools and store materials to support general trade scopes. Our ownership will rent and purchase any required specialty tools and equipment as needed to support projects as the needs.

FINANCIAL STABILITY

Everest Construction, LLC is bonded up to \$750,000 by Brunswick Companies as verified by their research, and confirmation of Eric Stewart's (Owner) net worth in the amount of \$1,095,500. Furthermore, close contacts and working relationships of contraction industry leading companies will partner with Everest Construction, LLC to accommodate as required for each proposal selected to pursue.
